

28th City Council District

David Kayode (D)

Greetings, my name is David Kayode and I am running for Queens district 28 City Councilmatic. I am running to make a change in the district in which I have called home for almost 20 years and have raised all of my children in public schools. What we need in this district in sustainable jobs, access to quality education and healthcare, opportunities for small businesses, prevention of foreclosure on our homes, enhanced services for senior citizens, and a better environment for our children so that they can become future leaders. In order reform, we must be fully informed. To accomplish these tasks, we must work together hand in hand and reach out to politicians beyond the district for support. I have dedicated my life to public welfare and human services and I have walked the streets of this district to assist fellow constituents in their efforts to get politicians to hear their cries for help. I know first hand what it takes to create a better flowing community and to make the necessary actions to become victorious. Here in district 28, we face a plethora of challenges; some that may seem bigger than politics but together with hard work we shall overcome. There is no success before work and if we work together as a team, we can eradicate all the obstacles that have been holding us back all these years. On September 10th, let me be your voice; the voice for the voiceless. VOTE David Kayode for City Council. Thank you and God bless.
